- BHAVNAGAR

## SKILLS

- CAD Software
- Crisis Management
- Creative Thinking
- Problem-Solving
- Negotiation
- Communication
- Adaptability to Change

## LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Gujarati (Fluent)

## PROFILE

Mechanical Engineer with strong knowledge of design, manufacturing, and quality processes. Skilled in CAD tools and problem-solving, with hands-on industry experience and a passion for efficient, practical engineering solutions.

## EDUCATION

### B.E MECHANICAL

MECHANICAL ENGINEERING 2020-2023

- Bachelor of Engineering (B.E.) in Mechanical Engineering with a strong grasp of core concepts like thermodynamics, machine design, and manufacturing processes. Skilled in CAD tools, engineering drawing, and problem-solving, with a keen interest in applying theoretical knowledge to real-world industrial challenges.

### DIPLOMA ENG.

MECHANICAL BRANCH 2017-2020

- Diploma holder in Mechanical Engineering with practical knowledge of mechanical systems, machine tools, and manufacturing processes. Skilled in technical drawing, basic CAD software, and hands-on workshop experience. Focused, reliable, and eager to apply skills in real-world engineering environments.

## INTERNSHIP / JOB

### SIDHDHPURA PLASTIC

Completed an internship at a plastic manufacturing company, gaining hands-on experience in production processes, material handling, and quality inspection of plastic components. Learned about injection molding, machine operation, and process optimization. Developed practical understanding of industrial safety, teamwork, and workflow management on the shop floor.
