1 **Duration**

From 01/01/2022 until terminated by either party (agreement to be reviewed in every three year).

2 **Service Objectives**

The objective of this Agreement is to secure alternative equipment for Blood Bank Santosh Medical and Dental College Hospitals and related services to a level that satisfies the requirements of the Blood Safety and Quality Regulations.

3 **Services to be covered**

The main elements of the services to be covered by this agreement are:

- Provision of Alternative blood bank services in case of any eventuality.
In case of breakdown of any equipment and blood bank services, Blood Bank Santosh Medical and Dental College Hospital can utilize the services and equipment of Ghaziabad blood bank. Blood Bank can utilize facility for any testing purpose, component separation, storage and other services.

In case of breakdown of any equipment and other blood bank services, Life Line Blood Bank can utilize the services and equipment of Blood Bank, Santosh Medical and Dental College Hospitals. Blood Bank can utilize facility for any testing purpose, component separation, storage and other services.
- Provision of inter-blood bank staff training
Both the blood bank will coordinate and cooperate for training of blood bank staff and students respectively.
- Provision of blood components in case of emergency.
In case of any emergency (non – availability of blood components) , the blood banks will provide the back up to each other respectively.
- Provision of support staff and services for blood donation camps.
Blood center Santosh Medical and Dental College Hospital and Ghaziabad blood bank will cooperate with each other and will provide the necessary staff and services for organizing indoor as well as outdoor blood donation camps respectively.

3 **Location**

Santosh Hospital Blood Banking services are provided from the Room no 222, second floor of Santosh Hospital, Ghaziabad. Ghaziabad Blood Bank is located 321/2 1st Floor Kalpana Building Kallupura , Ghaziabad. Both the blood bank operates in compliance with the Blood Safety and Quality Regulations.

4 **Quality Management Specification**

The originating Blood Bank undertakes to ensure that all blood and blood components will be accompanied by appropriate documentation and will be transported in a validated manner which ensures that the blood remain within specification throughout the transport period and until they are transferred to controlled temperature storage.

The supplying and receiving Blood Banks will adhere to the quality system for blood banks as required by the Drug and Cosmetic act. Where relevant, the following particulars will apply:

- There are standard operating procedures for the storage, and transport of blood and blood components within both the Blood Banks.
- Blood components will be transported in accordance with the Regional/National Transfer Policy
- "Cold chain" procedures, supported by documentary evidence, ensure specified temperatures and storage conditions are satisfactorily maintained at all times.
- Staff receive appropriate and regularly updated training in all of the above activities and appropriate records of this training are kept.

5 **Traceability**

It is essential that there is complete traceability for all units transferred.

Full records will be maintained of the transfer and return of all components and there will be a documented process in place to confirm the member of staff who transported and received the components.

The originating Blood bank will be responsible for full final traceability of units transferred to the other Blood Bank. At the time of transfer the originating Blood Bank will record that the units have been transferred. One trained technician will accompany. Technician accompanying the blood will be responsible for appropriate use of equipment and processing of components/testing, with permission and in presence of the staff of other Blood Bank where the facilities are being used.

6 **Transport**

Originating Blood Bank will be responsible for providing transport required for all products and will be responsible for all units in transit until their arrival at the receiving hospital has been documented.

7 **Charging**

THAT there shall be "No" financial commitments / obligations by both the parties for extending their mutual support and consent

9 **Compliance**

The originating blood bank will wish to assure themselves that the procedures and practices within the receiving blood bank satisfy the requirements of this Agreement.

10 **Remedies for Non-Performance**

In the event of either party not performing according to the agreed terms of this Technical Agreement, the following procedures will apply: -

- Where one party considers that the other party has failed to meet its obligations, that party will initiate a meeting with the other within four weeks.
- Following the meeting, the party which has not performed adequately will be given four weeks to resolve the issue, to the satisfaction of the other party. There will be joint discussion between both parties to reach a mutually acceptable outcome.
- Where non-performance has not been rectified within the agreed timescale, the non-performance can be taken through identified performance management arrangements. The local Hospital Transfusion Committee will be informed and the Chair of that committee will ensure the issue is resolved in an acceptable timescale. Where this is not achieved the HTC Chair will escalate the matter as appropriate.
