Background:

IndDEC British Centre of Clinical Excellence (herein after referred to as "IndDEC") "is an initiative propelled by a consortium of Master clinicians, setting European standards in Clinical training", focussed on providing clinical training designed to enhance and further the clinical skills and knowledge of clinicians and the entire medical/dental team. The centres are equipped with state of art training facilities, fully equipped with simulation suite for hands on component. Internationally known experts present the latest techniques in the areas of Oral Surgery, Implantology, Aesthetic Dentistry, Radio diagnosis and Ultra sonography. The intensive hands on trainings are designed for beginners and advanced practitioners using fully equipped surgeries and working spaces. Based on individual training goals, we evaluate and design the best training curriculums for the attending delegates. National and international clinicians have the option to join the training program based on their needs and enhance their clinical transferable skills, specialising in the domains. The first of the six centres of clinical excellence (IndDEC), are based in India (Mumbai), Egypt (Cairo) and UAE (Abu Dhabi), Saudi Arabia and Nepal.
